

Crunchy Dog Toy

Lots of dogs enjoy the crunchy sound of an empty water bottle. By re-using a couple of items instead of throwing them away, you can very easily create a new toy for your dog to enjoy!

Make sure to monitor your dog when they are playing with this toy, and throw it away once pieces start coming off. You don't want your dog ingesting any pieces of plastic!

MATERIALS:

- Empty water bottle with cap
- Tube or crew sock (even if it's old or has a hole!)
- Markers (optional)

INSTRUCTIONS:

Step 1: Let a little air out of the water bottle, and place the cap back on. This allows for the crunchy sound dogs love.

Step 2: Slip the sock over the water bottle.

Step 3: Tie a knot at the top.

Step 4: Decorate with markers (optional).

Step 5: Play time!
