

No Mess Pup Art

Try this fun, mostly mess-free painting activity for both kids and pets!*

MATERIALS:

- Saran wrap
- At least 2 colors of paint
- Large sheet of paper
- Hard mobile surface, such as cardboard or a cutting board
- Paper towels

Step 1: Place the sheet of paper on the board.

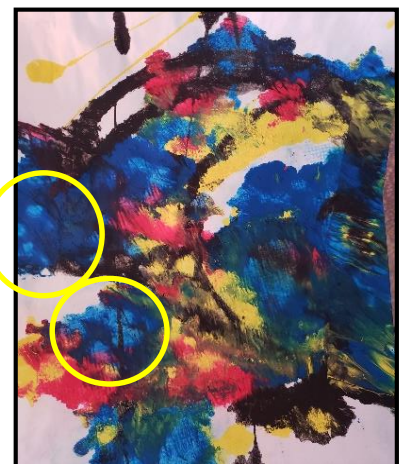

Step 2: Squeeze thin layers of paint onto your paper, using the different colors you have available.

Step 3: Place a layer of paper towels over the paint.

Step 4: Cover the entire surface in saran wrap. This is what prevents the mess.

Step 5: Place your board on the ground and have small children and/or dogs walk over it (or apply pressure with hands). This will blend the different colors together in unique ways. Help the kids lure your dog over the surface with food!

Step 6: Unwrap everything and set out in an area to dry. See if you can spot any paw prints! (see the yellow circles in our example!)
