

## TP Treat Dispenser

When it comes to providing some fun and enrichment for our pets, we can never have enough options! Make this treat dispenser for your dog.

### MATERIALS:

- An empty toilet paper or paper towel roll
- Scissors
- Treats
- Markers or color pencils

### STEP 1:

Take your scissors and carefully poke a hole into the toilet paper roll. Once you have poked a hole, use the scissors to carve out a larger hole that is big enough for a treat to fall through. Repeat this a few more times, poking more holes for treats to fall out of the toilet paper roll.

### STEP 2:

Decorate your toilet paper roll using markers or color pencils.

### STEP 3:

Fold one end of the toilet paper roll so it is sealed closed.

### STEP 4:

Take some treats and pour them into the open end of the toilet paper roll. Then seal this side shut.

### STEP 5:

Let your pet sniff the dispenser and then set it down for them to figure out and enjoy!

\*Please note that this dispenser will likely only last for one use, depending on how gentle your pet interacts with it. Repeat the steps with more (or bigger) rolls after they have finished the game.
